SOFTWARE DEVELOPMENT QUOTATION

DEVELOPER INFORMATION	CLIENT INFORMATION
Name: Medy Villarias	Company: Jayraldine's Catering Services
Address: UCMA 872, Cebu City, 6000 Cebu	Address: 518 V Rama Ave, Cebu City, 6000 Cebu
Email: medyvillarias36@gmail.com	Contact Person: Danilo Gimperoso Jr.
Contact No.: 09569231176	Contact No.: 0917 651 9555

Quotation Reference No.:	QUOT-2026-001
Date of Issue:	11/13/2026
Quotation Validity:	Thirty (30) days from the date of issue

1. PROJECT IDENTIFICATION

Project Name: Jayraldine's Catering Management System

Project Type: Custom Desktop Application — Catering Business Management

Status: Development completed and system delivered to client

2. PROJECT DESCRIPTION

Jayraldine's Catering Management System is a custom-built, desktop-based software application designed and developed exclusively for Jayraldine's Catering Services. The system supports day-to-day catering business operations through a centralized server-and-client architecture deployed over a local area network (LAN). Client devices — including desktop computers, laptops, and tablets — connect to the main server to access shared data and application services. The system is designed to operate with offline capability on client devices via a local database, with data synchronization performed between client devices and the main server.

3. SCOPE OF WORK COMPLETED

The following modules and functional areas have been designed, developed, tested, and delivered as part of this engagement:

3.1 Catering Operations Management — Core operational workflows for managing catering events and services.

3.2 Booking and Reservation Management — Creation, tracking, and management of client bookings and event reservations.

3.3 Customer Records Management — Maintenance of customer profiles, contact information, and event history.

3.4 Menu and Package Management — Configuration of catering menus, packages, pricing, and availability.

3.5 Billing and Invoicing — Generation of billing statements and invoices for catering services rendered.

3.6 Reporting and Analytics — Summary and operational reports for business monitoring and decision-making.

3.7 Multi-Device Support — Support for desktop PCs, laptops, and tablets as client devices on the LAN.

3.8 Centralized Server and Database — Primary application server hosting the main database and services.

3.9 Local Client Database — Offline-capable local database on client devices for uninterrupted operation.

3.10 LAN Connectivity and Data Synchronization — Client-server synchronization of data across the network.

3.11 User Account Management — User login, access controls, and role-based permissions.

4. INCLUSIONS

4.1 Correction of bugs and defects identified within the agreed scope of functionality.

4.2 Corrections to existing implemented features that do not function as originally agreed and specified.

4.3 Technical assistance during system handover and initial operational period (as mutually agreed).

5. EXCLUSIONS

5.1 Development of new features, modules, or functionalities not part of the original agreed scope.

5.2 Major redesigns, architectural changes, or significant modifications to existing features.

5.3 Integration with third-party systems, platforms, or external services not originally specified.

5.4 Hardware procurement, installation, configuration, or technical support for client hardware.

5.5 Ongoing maintenance and support services (available separately under a Maintenance Agreement).

5.6 Data migration from prior systems unless specifically agreed in writing.

6. DEVELOPMENT FEE AND PAYMENT SCHEDULE

Description	Percentage	Amount (PHP)
Total Development Fee	**100%**	**45,000.00**
Initial Payment — Due upon signing of agreement	60%	27,000.00
Final Payment — Due upon system handover / go-live	40%	18,000.00

7. PAYMENT TERMS

7.1 The initial payment of PHP 27,000.00 (60%) shall be due and payable upon execution of the Software Development Agreement or upon mutual written confirmation of the engagement terms.

7.2 The final payment of PHP 18,000.00 (40%) shall be due and payable upon system handover, go-live deployment, or as mutually agreed in writing.

7.3 Payments may be made via cash, bank transfer, GCash, or other mutually agreed payment method.

7.4 The developer reserves the right to withhold delivery of final materials and documentation until full payment has been received.

7.5 This quotation is proposed for mutual agreement and shall be formalized through a Software Development Agreement signed by both parties.

8. NOTES AND ACKNOWLEDGEMENT

This quotation is presented to formalize the commercial arrangement for the development work already completed and delivered. The terms herein are proposed pending mutual agreement and shall become binding upon execution of the accompanying Software Development Agreement or written confirmation by both parties. By signing below, both parties acknowledge the terms of this quotation and their intent to formalize the engagement.

SOFTWARE LICENSE AGREEMENT

This Software License Agreement (hereinafter referred to as the "Agreement") is entered into by and between the following parties:

1. PARTIES

1.1 Developer: Medy Villarias, medyvillarias36@gmail.com, 09569231176 (hereinafter referred to as the "Developer" or "Licensor").

1.2 Client: Jayraldine's Catering Services, : 518 V Rama Ave, Cebu City, 6000 Cebu represented by Danilo Gimperoso Jr. (hereinafter referred to as the "Client" or "Licensee").

1.3 This Agreement becomes effective upon full payment of the agreed Development Fee as stated in the Software Development Quotation (Ref. QUOT-2026-001) and any accompanying agreements.

2. LICENSED APPLICATION

2.1 The software covered under this Agreement is Jayraldine's Catering Management System (hereinafter referred to as the "Software" or "System"), a custom-built desktop application developed by the Developer for the Client.

2.2 The Software includes all program files, executable files, database structures, configuration files, and associated documentation delivered to the Client.

3. GRANT OF LICENSE

3.1 Subject to full payment of the Development Fee and compliance with this Agreement, the Developer hereby grants to the Client a perpetual, non-exclusive, non-transferable license to use the Software solely for the Client's internal business operations.

3.2 This license authorizes the Client to install and operate the Software on devices within the Client's business premises connected to the Client's local area network.

3.3 The Client may make reasonable backup copies of the Software solely for archival and disaster recovery purposes.

4. OWNERSHIP AND INTELLECTUAL PROPERTY

4.1 The Developer retains full and exclusive ownership of the source code, program logic, algorithms, and all intellectual property embodied in the Software.

4.2 This Agreement does not transfer ownership, copyright, or any proprietary rights in the Software to the Client. The Client receives only the usage rights expressly granted herein.

4.3 The Software, including all copies and modifications, remains the intellectual property of the Developer at all times.

5. INTELLECTUAL PROPERTY PROTECTION

5.1 The Client acknowledges the Developer's intellectual property rights in the Software and agrees to take all reasonable measures to protect those rights.

5.2 The Client shall not remove, alter, or obscure any copyright notices, proprietary markings, or attribution information within the Software.

5.3 The Client shall promptly notify the Developer upon becoming aware of any unauthorized use, reproduction, or distribution of the Software.

6. CLIENT DATA OWNERSHIP

6.1 All business data entered, stored, and generated by the Client's use of the Software (including but not limited to customer records, booking records, financial records, and operational data) remains the exclusive property of the Client.

6.2 The Client shall have the right to access, export, and retrieve its business data at any time.

6.3 The Developer shall not use, access, or disclose the Client's business data for any purpose beyond providing agreed technical support, without the Client's prior written consent.

7. RESTRICTIONS

7.1 The Client shall not redistribute, resell, sublicense, rent, lease, or otherwise transfer the Software or any rights therein to any third party.

7.2 The Client shall not reverse engineer, decompile, disassemble, or otherwise attempt to derive the source code of the Software, except to the extent expressly permitted by applicable Philippine law.

7.3 The Client shall not modify, adapt, translate, or create derivative works based on the Software without the Developer's prior written consent.

7.4 The Client shall not use the Software for any purpose other than its own internal business operations.

8. THIRD-PARTY COMPONENTS

8.1 The Software may incorporate open-source libraries, frameworks, or components subject to their respective third-party license terms.

8.2 The Developer shall inform the Client of any material open-source components included in the Software upon request.

8.3 The Client's use of such third-party components is subject to compliance with their respective licenses.

9. UPDATES AND ENHANCEMENTS

9.1 Updates, upgrades, enhancements, new features, or modifications to the Software beyond the original scope are not included under this Agreement.

9.2 Any such additional development work shall be subject to a separate written agreement and additional fees as mutually agreed by both parties.

10. WARRANTY LIMITATIONS

10.1 The Software is delivered and provided "as-is" based on agreed specifications and has been designed for the operational purposes of the Client's catering business.

10.2 The Developer does not warrant that the Software will be error-free, uninterrupted, or fit for purposes beyond its intended scope.

10.3 The Developer's liability under this Agreement shall be limited to the total Development Fee paid by the Client.

10.4 The Developer shall not be liable for any indirect, incidental, special, or consequential damages arising from the Client's use of the Software.

11. TERMINATION

11.1 This Agreement may be terminated by the Developer in the event of a material breach by the Client, including non-payment of agreed fees, violation of license restrictions, or unauthorized use of the Software.

11.2 Upon termination, the Client shall immediately cease all use of the Software and, upon the Developer's written request, destroy or return all copies of the Software in the Client's possession.

11.3 Termination shall not affect the Client's ownership of its business data, which the Client shall retain the right to export prior to or upon termination.

11.4 Provisions of this Agreement relating to intellectual property, confidentiality, and limitation of liability shall survive termination.

12. CONFIDENTIALITY AND DATA PROTECTION

12.1 Both parties agree to maintain the confidentiality of proprietary information shared in connection with this Agreement and not to disclose such information to third parties without prior written consent.

12.2 The Client agrees to implement reasonable security measures to protect the Software from unauthorized access, use, or distribution.

12.3 The Developer agrees to treat all Client business data with confidentiality and to access such data only as necessary for providing agreed technical support or services.

12.4 Both parties agree to comply with applicable Philippine data privacy laws, including the Data Privacy Act of 2012 (Republic Act No. 10173), with respect to any personal data processed through the Software.

13. DISPUTE RESOLUTION

13.1 In the event of any dispute arising out of or relating to this Agreement, the parties agree to first attempt resolution through good faith negotiation.

13.2 If the dispute cannot be resolved through negotiation within thirty (30) days, the matter shall be submitted to mediation or resolved through the appropriate courts and applicable laws of the Republic of the Philippines.

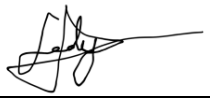

13.3 The venue for any legal proceedings shall be the appropriate court of competent jurisdiction in the Philippines.

14. GOVERNING LAW

This Agreement shall be governed by and construed in accordance with the laws of the Republic of the Philippines. Any provisions found to be invalid or unenforceable shall be severed from this Agreement without affecting the validity of the remaining provisions.

15. ENTIRE AGREEMENT

This Agreement, together with the Software Development Quotation and any other written agreements signed by both parties, constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior or contemporaneous understandings, communications, or agreements.

SOFTWARE MAINTENANCE AND SUPPORT AGREEMENT

OPTIONAL AGREEMENT — This Maintenance and Support Agreement is separate from and independent of the Software Development Fee and License Agreement. Engagement of maintenance services is at the sole discretion of the Client.

This Software Maintenance and Support Agreement (hereinafter the "Maintenance Agreement") is entered into by and between Medy Villarias ("Developer") and Jayraldine's Catering Services ("Client"), effective upon the date signed below by both parties.

1. PURPOSE AND SCOPE

1.1 This Maintenance Agreement defines the terms under which the Developer will provide ongoing technical maintenance and support services for the Jayraldine's Catering Management System following its deployment and go-live.

1.2 The purpose of these services is to ensure the continued stable and reliable operation of the System in support of the Client's catering business operations.

2. MONTHLY SERVICE FEE

2.1 The monthly fee for maintenance and support services under this Agreement is PHP 2,000.00 (Two Thousand Pesos).

2.2 The monthly fee is payable in advance, on or before the first (1st) business day of each calendar month.

2.3 Payment may be made via cash, bank transfer, GCash, or other mutually agreed payment method.

2.4 The Developer reserves the right to adjust the monthly fee upon thirty (30) days written notice to the Client. The Client may cancel the Agreement in accordance with Section 8 if the adjustment is not acceptable.

3. COVERED SERVICES

The following services are included under the monthly maintenance fee:

3.1 Technical Troubleshooting — Diagnosis and resolution of technical issues reported by the Client relating to the System's installed functionality.

3.2 Bug Investigation and Correction — Investigation and correction of software defects in existing implemented features that do not behave per the originally agreed specifications.

3.3 Database Backup Assistance — Guidance and assistance with database backup procedures; verification that backup processes are functioning correctly.

3.4 Basic Technical Support — Response to the Client's technical inquiries relating to System usage and operation.

3.5 Compatibility Maintenance — Maintenance to ensure continued compatibility of the System with the operating environment as reasonably required for continued operation.

3.6 Performance Monitoring Consultation — General advisory on System performance and operational best practices upon Client request.

4. SUPPORT AVAILABILITY AND RESPONSE

4.1 Support services are available during regular business hours: Monday through Friday, 8:00 AM to 5:00 PM (Philippine Standard Time), excluding public holidays.

4.2 The Developer shall acknowledge support requests within twenty-four (24) to forty-eight (48) hours for non-critical issues.

4.3 Issues classified as critical (System completely non-operational during business hours) shall be prioritized and acknowledged within four (4) business hours where reasonably possible.

4.4 Support requests shall be submitted via [EMAIL / MESSAGING CHANNEL TO BE AGREED]. Verbal reports must be followed up in writing.

5. EXCLUSIONS

The following are expressly excluded from the monthly maintenance fee and shall be subject to separate written quotation and agreement:

5.1 Development of new modules, functionalities, or features not part of the original System scope.

5.2 Major redesigns, architectural changes, or substantial enhancements to existing features.

5.3 Integration with third-party systems, external platforms, or new hardware devices.

5.4 Issues arising from hardware failure, power interruptions, network infrastructure problems, or damage caused by the Client or third parties.

5.5 Issues caused by third-party software, operating system updates, or external factors beyond the Developer's control.

5.6 Data recovery from corrupted or lost data not caused by the Software itself.

5.7 On-site visits to the Client's premises (may be arranged separately at additional cost if required and mutually agreed).

6. NEW FEATURE AND CHANGE REQUEST PROCESS

6.1 Any request for new features, enhancements, or significant changes to the System outside the existing scope shall be submitted by the Client in writing using the Change Request form provided in the System Scope and Change Request Document.

6.2 The Developer shall assess the request and provide a separate written quotation specifying scope, estimated cost, and timeline.

6.3 Development of new features or enhancements shall commence only upon the Client's written approval of the quotation and receipt of any agreed initial payment.

7. SUSPENSION OF SERVICES

7.1 If the monthly maintenance fee remains unpaid for thirty (30) or more calendar days beyond the due date, the Developer reserves the right to suspend maintenance and support services without further notice.

7.2 Services shall be reinstated upon receipt of all outstanding payments, including any applicable late charges mutually agreed by the parties.

8. CANCELLATION

8.1 Either party may cancel this Maintenance Agreement by providing thirty (30) calendar days written notice to the other party.

8.2 Upon cancellation, the Developer shall complete any support work in progress during the notice period. No pro-rated refund shall apply for the month in which cancellation notice is given, unless otherwise agreed in writing.

8.3 Cancellation of this Maintenance Agreement does not affect the Software License Agreement, which remains in effect independently.

9. DEVELOPER RESPONSIBILITIES

9.1 Respond to support requests within the agreed response times.

9.2 Maintain the technical knowledge and competency required to support the System.

9.3 Communicate clearly and promptly regarding the status of reported issues and estimated resolution timelines.

9.4 Maintain confidentiality of Client business data accessed during support activities.

10. CLIENT RESPONSIBILITIES

10.1 Provide the Developer with reasonable and timely access to the System and relevant information necessary for the provision of support services.

10.2 Report issues clearly and in sufficient detail to allow the Developer to investigate and address them effectively.

10.3 Maintain the hardware, networking infrastructure, and operating environment in a condition suitable for the System's operation.

10.4 Ensure that any person using the System on behalf of the Client does so in accordance with this Agreement and the Software License Agreement.

11. DATA SECURITY

11.1 The Client is responsible for the physical security of hardware on which the System is installed and operated.

11.2 The Developer shall not access the Client's data, database, or hardware remotely or on-site without the prior written or documented authorization of the Client.

11.3 Both parties agree to handle any personal data processed through the System in compliance with applicable Philippine data privacy laws.

12. EFFECTIVE DATE

This Maintenance Agreement shall take effect on the date signed by both parties below and shall continue on a month-to-month basis unless terminated in accordance with Section 8.

EXISTING SYSTEM SCOPE AND CHANGE REQUEST DOCUMENT

1. PROJECT OVERVIEW

This document serves as the official reference for the implemented scope of the Jayraldine's Catering Management System and establishes the formal process for requesting changes, enhancements, or additions beyond the existing implemented scope. This document shall be maintained and updated throughout the life of the system.

Project Name	Jayraldine's Catering Management System
Developer	Medy Villarias
Client	Jayraldine's Catering Services
Development Status	Completed, Deployed, and Operational
Document Reference	SCOPE-2026-001

2. EXISTING SYSTEM DESCRIPTION

The Jayraldine's Catering Management System is a fully operational, custom-built desktop application that supports the day-to-day management of catering operations for Jayraldine's Catering Services. The system has been designed, developed, delivered, and is currently in active use by the Client.

3. SYSTEM ARCHITECTURE

3.1 Main Server — A centralized server hosts the primary application database and core application services. All client devices connect to this server via the local area network (LAN) to access shared data and system functionality.

3.2 LAN-Connected Client Devices — Client devices — including desktop PCs, laptops, and tablets — are connected to the main server over the local area network. These devices run the System's client application and interact with the centralized database through the server.

3.3 Local Database on Client Devices — Each client device maintains a local database to support continued operation in the event of temporary network unavailability. This enables offline operation while the main server is inaccessible.

3.4 Offline Capability — Client devices are capable of operating in an offline mode using the local database. [Note: The specific behavior, scope of offline features, and data conflict resolution are to be confirmed with the Developer based on the implemented design.]

3.5 Data Synchronization — The System performs synchronization of data between client devices and the main server. [Note: The synchronization method, trigger conditions, and conflict resolution approach are to be confirmed with the Developer.]

4. IMPLEMENTED MODULES

The following functional modules have been implemented and delivered as part of the System. The list below represents general categories; actual implemented features within each module should be verified with the Developer against the final delivered application:

4.1 Catering Operations Management — Core workflows supporting the management of catering events, services, and overall operational processes.

4.2 Booking and Reservation Management — Creation, tracking, updating, and management of client bookings, event reservations, and scheduling.

4.3 Customer Records Management — Maintenance of customer profiles, contact details, event history, and related records.

4.4 Menu and Package Management — Configuration and management of catering menus, food packages, pricing, and availability.

4.5 Billing and Invoicing — Generation of billing statements, invoices, and payment records for catering services rendered.

4.6 Reporting and Analytics — Operational and summary reports to support business monitoring, decision-making, and performance tracking.

4.7 User Account Management — User authentication, login management, access controls, and role-based permissions.

4.8 [Additional Modules] — Additional modules implemented as part of the agreed scope are to be confirmed and listed here by the Developer upon review.

5. OUTSTANDING BUG REPORTS

The following table records identified bugs and defects within the existing implemented functionality. Bug fixes for agreed functionality are covered under the Development Fee. Classification shall be validated by the Developer.

Request ID	Description	Classification	Priority	Est. Cost	Status	Approval
BUG-001	[Description to be completed — e.g., issue with booking status update]	Bug Fix	High	TBD (Covered)	Open	Pending
BUG-002	[Description to be completed — e.g., billing calculation discrepancy]	Bug Fix	Medium	TBD (Covered)	In Progress	Pending
BUG-003	[Description to be completed — e.g., report generation error]	Bug Fix	Low	TBD (Covered)	Open	Pending

6. FUTURE ENHANCEMENT REQUESTS

The following table records requested enhancements and new features beyond the original implemented scope. Each enhancement request shall be assessed, quoted, and approved separately before development commences.

Request ID	Description	Classification	Priority	Est. Cost (PHP)	Status	Approval
ENH-001	[Enhancement request to be	New Feature	Medium	[TBD]	Pending Review	Not Yet Approved

	completed — e.g., SMS notification for bookings]					
ENH-002	[Enhancement request to be completed — e.g., online booking portal integration]	New Feature	Low	[TBD]	Pending Review	Not Yet Approved
ENH-003	[Enhancement request to be completed — e.g., advanced sales analytics dashboard]	Enhancement	Low	[TBD]	Pending Review	Not Yet Approved

7. CHANGE REQUEST CLASSIFICATIONS

7.1 Bug Fix — Existing functionality does not behave in accordance with the originally agreed and specified requirements. Bug fixes for agreed functionality are covered under the Development Fee.

7.2 Enhancement — An improvement to or extension of an existing implemented feature that goes beyond its current agreed functionality. Subject to separate quotation and approval.

7.3 New Feature — A functionality or module not part of the original agreed scope. Subject to separate written quotation, agreement, and payment.

7.4 Technical Maintenance — Preventive, corrective, or compatibility-related work to ensure continued stable operation of the System. Covered under the Maintenance Agreement where applicable.

8. CHANGE REQUEST APPROVAL FORM TEMPLATE

The following form shall be completed for each formal change request submitted by the Client and assessed by the Developer. A separate form shall be used for each individual request.

Request ID:	[CR-XXXX]	**Date of Request:**	[DATE]
Requested By:	[NAME AND DESIGNATION]	**Contact:**	[EMAIL / PHONE]
Request Classification:	[Bug Fix / Enhancement / New Feature / Technical Maintenance]	**Priority:**	[High / Medium / Low]
Description of Requested Change:	*[Provide a clear and detailed description of the requested change, feature, or fix.]*		
Reason / Business Justification:	*[Explain the business reason or operational justification for this request.]*		
Technical Impact Assessment:	*[To be completed by Developer: scope of technical impact, affected modules, estimated effort.]*		

Estimated Development Cost:	*[PHP _____ — To be determined by Developer after assessment.]*
Estimated Completion Date:	*[_____ — To be determined by Developer after assessment.]*

Developer Approval Signature: _____ Printed Name: _____ Date: _____	Client Approval Signature: _____ Printed Name: _____ Date: _____

BILLING AND PAYMENT RECORD

BILLING AND PAYMENT RECORD TEMPLATE — NOT A BIR-COMPLIANT OFFICIAL RECEIPT
This document serves as an internal payment record only. For official tax receipts or BIR-compliant invoices, consult with a qualified accountant or the Bureau of Internal Revenue.

1. DESCRIPTION OF SERVICES RENDERED

Custom software development services for the design, development, testing, deployment, and delivery of the Jayraldine's Catering Management System — a desktop-based catering business management application with centralized server and database, LAN-connected multi-device client support, offline capability, and data synchronization. The system covers catering operations management, booking and reservation management, customer records, menu and package management, billing and invoicing, reporting, and user account management.

2. FINANCIAL SUMMARY

Item / Description	Amount (PHP)
Total Software Development Fee	**45,000.00**
Less: Initial Payment Received (60%)	(27,000.00)
Remaining Balance Due (40%)	**18,000.00**

3. PAYMENT DATE RECORDS

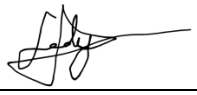

Payment Installment	Date Paid
Date of Initial Payment (60% — PHP 27,000.00):	[DATE PAID: _____]
Date of Final Payment (40% — PHP 18,000.00):	[DATE PAID: _____]

4. PAYMENT TRACKING TABLE

Payment No.	Description	Amount Due (PHP)	Amount Paid (PHP)	Date Paid	Method	Balance (PHP)	Received By
1	Initial Payment — 60% of Development Fee	27,000.00	[_____]	[DATE]	[Method]	[_____]	[NAME]
2	Final Payment — 40% of Development Fee	18,000.00	[_____]	[DATE]	[Method]	[_____]	[NAME]

5. PAYMENT CONFIRMATION AND ACKNOWLEDGEMENT

By signing below, the Developer acknowledges receipt of the payments indicated in this document, and the Client acknowledges that the payments indicated have been made in accordance with the agreed payment schedule. This document serves as an internal payment record only.

6. IMPORTANT NOTE

This document serves as an internal payment record and billing reference for the parties named herein. It is NOT an official receipt, BIR-compliant invoice, or tax document under the National Internal Revenue Code of the Philippines. For official tax receipts, VAT invoices, or BIR-compliant documentation, the Developer shall consult a qualified accountant or comply with applicable Bureau of Internal Revenue (BIR) regulations. Both parties are responsible for their own tax obligations arising from this engagement.
